

THIENSVILLE AREA

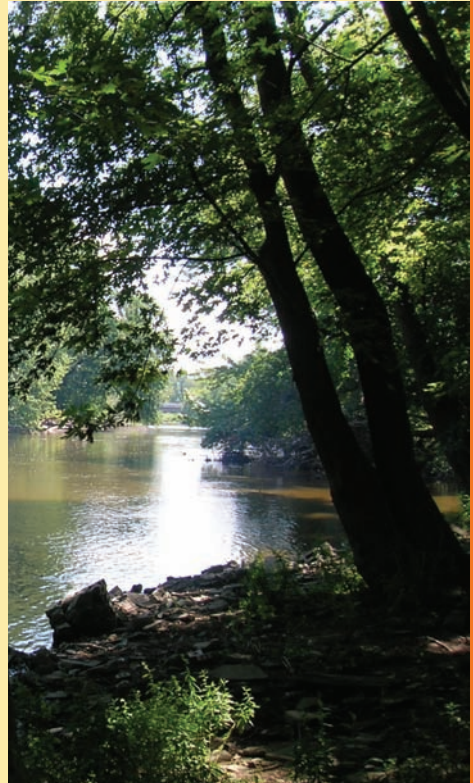

Thiensville, an attractive, self-governed village just one square mile in size, is located in the heart of the city of Mequon. In 1842, Jochim Heinrich Thien settled in the area and bought 148 acres. Thien laid out the plans for the village, built a mill and thus “Thiensville” was born.

The site of many historical buildings, Thiensville is a community rooted in tradition with a vision for the future. Known as the “mile of smiles,” Thiensville is home to about 3,400 residents. It has a predominately small town suburban residential character with a high quality of life created by well maintained homes, condos and apartments.

The Village has a beautiful park on the Milwaukee River which annually hosts “Family Fun Before the Fourth” event, a day of fun for the whole family held on the Saturday before the Fourth of July. This event, which begins in the morning with a parade and ends with the traditional fireworks display, is the highlight of everyone’s summer. A Farmer’s Market is held every Tuesday from May to October where you can purchase fresh produce and flowers from area growers.

In 2005, Mequon and Thiensville were ranked 19th on Money Magazine’s 100 Best Places to Live list. Together they provide an excellent environment in which to live, work, shop, play and learn.
